# USER GUIDE

FOR

DD-101 Series products---

*Doff*

cleaning solution

---

**AIR FILTERS** – Spray, let sit for 15 minutes, then rinse thoroughly and dry before use.

**ALUMINUM** – Spray and wipe. If needed, agitate molecules by brushing and allow to soak before wiping.

**APPLIANCES** – Spray, let sit for 30 seconds, then wipe.

**AQUARIUMS** – Follow the manufacturer's instructions for aquarium cleaning, using solution in place of soap or detergent. Rinse thoroughly and carefully, as aquariums are glass. (see also GLASS). DD-101 helps eliminate odors from aquariums, snake habitats and other pet areas without leaving a harmful toxic residue.

Pet owners love the results and the \$aving\$!

**NOTE:** Take caution if pet spiders and insects live in the aquarium. DD-101 emulsifies oil-based creatures, (insects, spiders) so completely rinse the DD-101 from surfaces before reintroducing your pets.

**ASH TRAYS**– Empty excess ashes, spray with solution and rinse clean.

**AUTO EXTERIOR** – Work on a cool surface in shade. Remove bugs, bird droppings, tree sap and tar by spot spraying. Spray on, wait 30 seconds, and then wipe with damp cloth. Fill a bucket with water and add 4-6 ounces of solution.

Use a sponge or rag to wash vehicle, or use a hose attachment containing solution to spray directly on vehicle. Use sponge to agitate. Rinse clean with hose. DD-101 run-off does not harm environment.

**NOTE:** DD-101 is an oil emulsifier that emulsifies wax. Always use a diluted solution, never concentrate, and rinse immediately and thoroughly with plenty of water to avoid stripping the wax finish off the painted surfaces of your car.

**AUTO INTERIORS** – Note: for Leather Interiors see section on LEATHER. Spray solution on all surfaces first to allow grime to begin breaking down while you work. Use a small brush or toothbrush to get into crevices. Wipe each surface with damp towel or cloth (spray with distilled or other purified water for greater cleaning power). Scrub where necessary. Follow with dry cloth. For fabric upholstery, use an aerating foamer pump dispenser with a lighter solution. Brush clean in a circular motion. Lift stains by spot cleaning and pressing with clean cloth, alternating damp cloth with dry cloth.

**BIRD CAGES** – Sweep out bottom of cage. Dampen cloth thoroughly with DD-101 and wipe all surfaces. For droppings, spray directly on spots, and agitate if needed. Follow with fresh moist cloth to rinse areas clean. For odor control, spray bottom of cage with solution after cleaning.

---

**BLINDS (VENETIAN AND MINI)** – Close completely. Wipe solution on with damp cloth or towel and follow with a soft, dry cloth.

**BRIEFCASES**– Wipe with damp cloth sprayed with solution and dry immediately.

**BUGS** – Before the advent of pesticides, it was common practice to use soap as an insect deterrent because bugs avoid soap! Since DD-101 is an oil emulsifier, and insects are oil-based creatures...well, you do the math. Try it yourself “clean up” your bug problem!

**CABINETS** – Laminated -Wipe with cloth dampened with solution. Follow with a dry cloth.

**CAR** – Fill a bucket with water and add 20ml of solution. Use a sponge or rag to wash the vehicle, or use a hose attachment containing solution to spray directly on vehicle. Use a sponge to agitate. Rinse clean with a hose.

**CARPETS** – DD-101 Doff is great for carpets and rugs. Spray solution directly on stain. Use terry cloth or scrap of same carpet to work into spot. Let sit for 60 seconds, then blot and wipe with clean lint free cloth. Remove with plenty of water and pat dry with a towel. More than one application may be needed for harder stains. When using a machine to clean carpets, use 2 -4 ounces of DD-101 Doff solution per gallon of water. Use the soap solution only ONCE on the carpet, then simply rinse, rinse, rinse with water. Spray spots in advance with a stronger solution. Light carpets work best with a lighter dilution, darker carpets work best with stronger solution. Test small area first.

**CATS** – Wash your cat as usual, replacing cat or flea shampoo with a 10:1 solution of DD-101 Doff solution. Some cat lovers use this method: have one person hold the cat. Use warm water with shower spray attachment to wet the cat. Squirt the cat with solution in a squeeze bottle, starting at top. Lather for 5 minutes. Rinse thoroughly, gently pat dry a few times, and let go!

Your cat may not like getting wet any more than before, but he or she will love being bug and poison free, and having healthier skin.

**CEILING FANS** – Wipe excess dust off first. Spray cloth with solution. Wipe and dry.

**CLOSETS** – Spray shelves, walls, floors and wipe. Leaving a residue of DD-101 Doff solution in corners and crevices helps deter bugs.

**COUNTER TOPS** – To remove dirt and grime, spray surface, wait a minute, then wipe off with a wet cloth or sponge. Dry off if desired. To remove stains, scrub with a scrub pad or stiff brush before wiping off.

**CRAYON** – Spray, let sit 30 seconds. Rub with a damp terry cloth. For painted walls or wallboard, first test in an inconspicuous place for paint durability. Spray damp cloth and rub.

---

**DENTURES** – Soak in a container filled with 1 part of Doff solution and 3 part of water. Brush with a toothbrush. Do not use on brand new dentures! Dentures soaked in DD-101 Doff solution do not build up tartar! You will love people’s comments on your white teeth!

**DIAPERS** – Rinse off excess baby excrement. Spay Doff solution directly onto the diapers and soaking in bucket with water. When ready to launder, rinse off and throw into washing machine. Food grade hydrogen peroxide may be added to wash cycle along with DD-101 for brightness. Bleach is not recommended!

**DINING ROOM FURNITURE** – Lightly wipe furniture with cloth dampened with solution. Follow with dry cloth.  
Do not use on antique or varnished wood surfaces.

**DISHES** – For washing dishes, pots and pans by hand, Spray Doff solution directly on sponge and agitate. Vary strength according to greasiness of items. You will see the grease come off your dishes and gather on the edge of the dishpan! For additional suds, spray solution directly on sponge and agitate, or use an aerating foamer pump dispenser. (DD-101 Doff alone does not create lots of suds, but it cleans exceptionally well.)

**DISHWASHERS** – Did you know that Dishwasher Detergents are the # 1 cause of childhood poisonings? Why eat on dishes that have caustic chemical residues? Use “ultra safe” DD-101 Doff right in your dishwasher! Pre-spray heavily soiled or greasy dishes with solution as you load them. Then Use 1-2 ounces of solution in reservoir on dishwasher door. Amount of DD-101 Doff solution depends on your water – use more for “hard” water, which has more minerals.

**DISPOSALS** – Spray directly into disposal. This cleans your disposal and removes buildup.

**DOGS** – DD-101 Doff is safe for your puppies, dogs and other pets (but not insect pets!) Use a sponge soaked in 10:1 solution or a squeeze bottle to apply solution. Lather up your dog for at least 5 minutes. After massaging, rinse clean. You’ll be amazed at how fleas and mites can wash right out, and how itching diminishes.

**DRAWERS** – Get out the grit and keep out the bugs by spraying and wiping the corners and linings of drawers all over the house.

**DRY ERASE BOARDS** – DD-101 doesn’t just move the dry erase ink around – it gets the board white again! Spray directly on the white board, and wipe with fresh paper towel. Apply pressure to older, faded dry erase ink marks, or allow it to soak for a few minutes, repeat process if necessary. (Note: If difficult to write on board after cleaning, simply rinse with pure water and dry completely )

---

**FILTERS, AIR** – Spray filter, let sit 10-15 minutes, rinse thoroughly.

**FISH TANKS** – No more worries about chlorine killing your fish! Empty tank, spray and wipe with DD-101 Doff. Wash to clean.

**FLEAS** – Spray directly on pet fur, or lather up your puppy with foam from an aerating foamer pump dispenser and watch fleas flee as you rinse them out. DD-101 Doff can continue to be used as a phenomenal pet shampoo for your pet's best, most healthful hygiene.

**FURNITURE (WOOD)** – Spray onto a damp cloth or directly on surface. Wipe with a cloth until dry.

**GLASS** – Spray very dilute solution of DD-101 Doff directly on glass surfaces (60 part of water to 1 part of Doff solution). Wipe clean with rag or paper towel. Dry with a dry rag or paper towel.

**HANDS** – Spray hands, rub and rinse. You will love how it rinses clean quickly even in cold water and leaves no residual chemical odor that may interfere with your dining pleasure. Kids love washing their hands with an aerating foamer pump dispenser.

**INK** – Spray on stain (will not remove some "set-in" stains if previously laundered). Rub vigorously. Wash according to LAUNDRY directions.

**INSECTS** – To discourage insects, spray target area and leave residue to dry. Also spray areas where bugs enter house to discourage entry. Use stronger dilutions if necessary. DD-101 Doff also helps wash fleas and mites out of pets' fur. Try it!

**JEWELRY** – Soak jewelry overnight in 10:1 DD-101; use a soft brush if necessary. Rinse and dry. Or, spray with DD-101 Doff, brush with a soft brush, rinse and dry. Not recommended for opals and pearls.

**KITCHEN APPLIANCES** – Spray, let sit for 30 seconds, then wipe clean.

**KITCHEN CABINETS** – Spray surface and wipe off with a wet cloth or sponge. To remove stains, scrub with a scrub pad or stiff brush before wiping off.

**LEATHER** – Test on inconspicuous area first for color fastness. Spray solution on a damp cloth and wipe the leather furniture or clothing. For stubborn stains, brushing with a small soft brush may be necessary.

**MIRRORS** – Use extremely dilute solution (one part of DD-101 Doff solution to 60 part of water). Spray onto a soft, clean cloth or spray directly on mirror. Rub and wipe. Buff dry with a

---

second soft cloth.

**OFFICE EQUIPMENT** – Wipe gently with a slightly damp towel (moistened with solution). Dry immediately. Excellent for helping get tape residue off file cabinets and desktops.

**OVENS** – Spray inside of slightly warm oven (not over 100 degrees) with water, spray with DD-101 Doff. Let sit a few minutes. Apply a second time if needed. Scrub the racks with a stiff brush. After the racks are clean, wipe the inside of the oven with a wet cloth. Dry with paper towel or dry rag. Does not require rubber gloves or opening windows!

**OXIDATION ON CARS** – Spray 5-6 times into a pail with half pail of water (as per regular car washing) to remove oxidation and heavy grime.

**PANTRIES** – Spray directly on cupboard, wipe and rinse. Do not use on unfinished or varnished wood surfaces.

**PERSONAL HYGIENE** – Spray onto washcloth or puffy net bath sponge. Agitate to work into lather. Wash, rinse. Avoid getting spray into eyes. “Ultra-safe” for all washing purposes, especially for babies. An aerating foamer pump dispenser creates a smooth, velvety lather for kids of all ages. Oily skin can use a stronger solution, dryer skin a lighter solution. Test various dilutions to find your preference.

**PET ODORS** – Spray surface emitting odor, let solution sit for a minute or two, and rinse and wipe clean.

**PET STAINS** – Spray on stained surface, let solution sit for a minute or two, rinse and wipe clean. May need to scrub with a stiff brush.

**PETS** – (Mammals.) Place pet in tub with water, or in a clear area. Wet down pet's fur. Spray fur or use squeeze bottle to apply DD-101 Doff solution, avoiding eyes. Work into lather, rinse. Do not use on pet insects or spiders! DD-101 Doff is phenomenal on cages, especially snake cages and other animals that produce heavy odors.

**PLASTIC** – Spray, wipe and dry.

**POOL FILTERS** – Instead of throwing out your dirty pool filters, soak them in DD-101 Doff solution and rinse thoroughly.

**POT & PANS** – Burned on food comes off much easier after soaking in solution.

**SHOWER CURTAIN** – Spray. Leave on overnight. At your next shower, rinse off.

**SHOWER DOOR** – Spray. Agitate with a wet brush. Rinse. Repeat, if necessary. Buff dry.

---

**SINKS** – Spray. Let sit 30 seconds. Wipe with a damp cloth or sponge. Agitate with a brush if heavily soiled. Rinse. Wipe with a dry cloth.

**STAINLESS STEEL** – Spray and wipe.

**STEEL** – Spray and wipe with cloth or scrub with brush.

**STOVETOPS** – Spray, let sit a few seconds. Wipe with a damp cloth. Burned on food may require soaking and a scrub pad to loosen it. Soak implements overnight and enjoy much easier clean up. Re-spray as needed to maintain.

**STUCCO** – Spray, scrub with a stiff brush, and rinse clean. For mildew, leave on longer before wiping and rinsing.

**TIRES** – Spray on, then agitate with a stiff brush and rinse off with water. Buff dry.

**TOYS** – Wipe with damp cloth sprayed with solution. Dry with soft cloth. For toys that you can immerse in water, soak in a gallon bucket with 4-6 ounces of solution. Use soft brush if necessary. Rinse clean.

**WALLPAPER** – Use a very light solution. Test first in an inconspicuous area. Spray damp rag or sponge with DD-101 Doff and wipe. Dry off immediately.

**WALLPAPER STRIPPING** -Using a garden sprayer filled with solution, spray walls and let sit for several minutes so solution can soak through wallpaper and dissolve glue. (By the time you finish spraying all the walls, you can start scraping where you started spraying). Wallpaper will peel off in large sheets. Use a paint scraper if necessary.

**WHITE BOARDS** – Keep them sparkling white by spraying with Doff. misters, and wiping clean with paper towels.

**WINDOW FRAMES** – Spray onto a soft, clean cloth or spray directly on window frame and wipe clean. Rinse and buff dry with a second soft cloth. Remember, all but a very weak solution (250:1) may cause streaking on glass.

## DD-101 HELPS REDUCE YOUR RISK OF BECOMING CHEMICALLY SENSITIVE!

People are becoming chemically sensitive in epidemic proportions, silently, daily, one toxic exposure at a time. The most common reason people become chemically sensitive is because of the daily, bit by bit accumulation of toxins in the body.

Toxins are absorbed through the skin, inhaled in through the lungs and ingested through the food we eat (most processed foods, meats and produce have pesticides, fluoride, dioxins and other environmental contaminants.)

While we can't control many of these chemical exposures, we can control a major source: the common household cleaning products and personal care products that can be replaced by DD-101. It is that simple. Start reducing your risk today by getting to know what products are most toxic in your home.

Household cleaners and detergents marked with the "signal" words: "Caution", "Warning" or "Danger" are legally defined as poisonous. These three words are legal markers mandated by the EPA to appear on the label, and mean that a product is lethal enough to kill an adult 180-pound male in certain specific amounts. They replaced the familiar but no longer seen Skull & Crossbones symbol that was formerly used to designate lethal poisons:

CAUTION: An ounce to a pint could be FATAL to an adult if ingested.

WARNING: A teaspoon to an ounce could be FATAL to an adult if ingested.

DANGER: A taste to a teaspoon could be FATAL to an adult if ingested.

## DD-101 IS THE ULTIMATE SOLUTION FOR POISON SAFETY!

Children cannot read these words of warning! Their bodies also cannot handle what an adult body can handle. Using DD-101, you can replace harmful household products, effectively eliminating risk of accidental poisonings and inhalant abuse.

You have an urgent responsibility to protect your children and teenagers from poisons, and not just from accidental poisonings and misuse of toxins Equally devastating is the unintentional brain, organ and tissue damage from continuous exposure to common household chemicals – ranging from learning difficulties, inability to concentrate and numerous allergic reactions all the way up to permanent Multiple Chemical Sensitivity.

---

Don't just try to hide poisons from your curious toddler or teenager. REMOVE THEM! It can't happen in your home if there aren't any poisons available for them to get into. DD-101 cleans so well and is so versatile that you will no longer need to worry about poisons in your home

It's a dirty world. Let's clean it up!!!
